

MINING FOR LEADS

We have gathered the average CPL across our active campaigns coast to coast

We start with the warmest demographic that has shown to work well with your product. On average, our leads are between the ages of 55-75, but this can be altered to suit your needs if necessary.

Also, we see around 10% of our leads reaching out to agents first. So there's a good chance that they'll address you by name and request an appointment.

A BETTER WAY TO BUY LEADS

Consider this:

- ⚡ All our leads are 100% exclusive. They're never shared with other agents.
- ⚡ Generated within a 50 mile radius of your desired target.
- ⚡ Sent to you in real-time, usually within 48-72 hours.
- ⚡ We give you all the info you need to CLOSE these leads.

It's a better way to buy leads. Period.
